Timeless design rooted in Denmark

Our Spring Collection SS25 is a celebration of clean, timeless aesthetics and high-quality craftsmanship. From everyday essentials to iconic designs, each piece is thoughtfully created to enhance daily life with beauty and functionality. At Stelton, we unite tradition and innovation, drawing on our Danish roots while embracing a modern, international mindset. With a focus on refined details and premium materials, we create designs that not only meet practical needs but also inspire moments of connection and joy.

Welcome to a collection where simplicity and elegance come together to make life a little more beautiful.

Step into the shades of the season

Discover the palette of spring SS2025. This harmonious palette of warm rose tones, refreshing green accents, and soft neutrals reflects the perfect balance of nature-inspired tranquility and contemporary design. Together, these colors transform everyday moments into effortlessly beautiful experiences.

Immerse yourself in the serene elegance of heather, a muted rose hue that exudes timeless sophistication and calm. Laevis introduces a fresh, subtle green, bringing balance and renewal to your surroundings. Wheat, with its light and natural glow, adds warmth and simplicity, inspired by sunny days and a relaxed aesthetic.

Perfect harmony

The EM77 jug and the bread bag invite you to slow down and enjoy a well-earned break with a great cup of tea or coffee.

Enjoy your favourite drink at home, at the office or on the go and make any moment special.

A bread bag finishes the table setting on a Sunday morning, for brunch, lunch or dinner. The spacious bread bag is perfect for serving both loafs, rolls and Danish.

Designed to last a lifetime

„My way of designing is not an intellectual process. My ideas are borne out of my own needs. I don't want to complicate things, only to make every-day life a little easier.“

- Erik Magnussen, Designer

The EM77 vacuum jug was designed to last a lifetime, as all the components can be replaced if they should break. This extends the service life of the vacuum jug, thereby benefiting the environment.

Made in Denmark

The EM77 vacuum jug is a renowned design icon. Exhibited in museums globally, this iconic jug, crafted from ABS plastic, has been produced in Denmark since 1977, available in an extensive palette of over 100 colors.

Inspired by the iconic EM77 thermos design, the EM tray and jug with lid epitomize stylish serving in the Stelton EM series. Crafted in Denmark, they seamlessly blend form and function with timeless elegance.

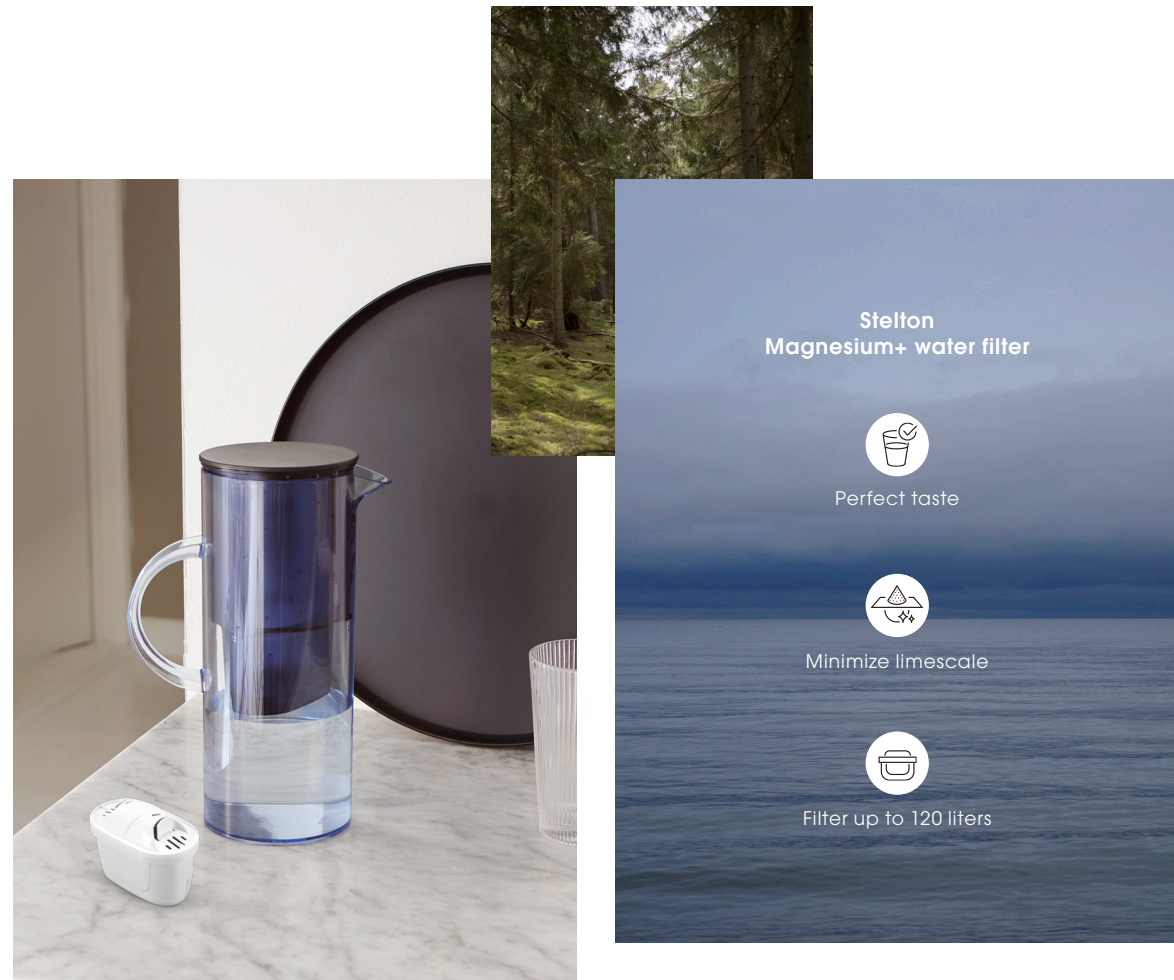

Simplicity at its best

The EM77 line includes a vacuum jug in 1-liter and 0.5-liter sizes, a French press, a water filter jug, a tray, and an electric kettle. This season, we are excited to introduce the EM77 electric kettle in a convenient 0.5-liter version.

The renowned EM77, designed by Erik Magnussen, features an elegant design that seamlessly blends form and function.

The Stelton Magnesium+ water filter removes heavy metals such as lead and copper, reduces limescale, and enriches the water with magnesium, enhancing the flavor of your water, coffee, tea, and other beverages. Filtering water reduces reliance on single-use plastic bottles, making it an eco-friendly and cost-effective choice. It also protects appliances like kettles and coffee machines, ensuring optimal performance and a longer lifespan. The Stelton Magnesium+ water filter is compatible with water filter jugs from leading brands that use the same filter type.

Pure, smooth and refreshing filtered water

Experience the benefits of clean, soft and better-tasting water with the EM77 water filter jug and Stelton Magnesium+ water filter.

Sparkling or still?

Stelton's Brus lets you experience the benefits of clean water right in your own kitchen. The ultra-sleek Brus line includes a carbonator, a new water filter jug, and a steel carbonating bottle.

The new Brus water filter jug gives you softer, cleaner and better-tasting water right in your own kitchen, saving the environment from unnecessary plastic, reducing reliance on single-use plastic bottles.

Perfect taste

Minimize limescale

Making everyday life
a bit more beautiful

The Pilastro series, designed by Francis Cayouette, embodies timeless elegance and functional simplicity. Inspired by the Art Deco movement, the collection features fluted details that combine classic design with modern versatility.

Introducing the new pilastro juice glass. With the addition of the new Pilastro juice glass, the series continues to bring style and practicality to your table. Designed to perfectly complement the Pilastro carafe, the juice glass fits seamlessly into the collection, making it ideal for both everyday use and special occasions.

The new Amphora vacuum jug in stainless steel is dishwasher safe and will keep your coffee or tea hot for hours. The vacuum jug is named after the ancient Greek earthenware pots which were used to store and transport oil and wine. The Danish designer, Sebastian Holmbäck has drawn inspiration from the amphora's round body and distinctive shoulders in a design that also reaches far into the future.

Timeless elegance

Award-winning designer Sebastian Holmbäck brings his creative expertise to The Amphora Collection for Stelton, combining timeless elegance with modern functionality. His vision and attention to detail have made The Amphora Collection a popular choice, reflecting his unique approach to contemporary design.

An eco-conscious lifestyle

Stelton offers high quality vacuum insulated cups and bottles in 90% recycled stainless steel. Perfect for those who aspire to maintain an elegant and environmentally friendly lifestyle while on the go.

Stelton x Moomin

2025 marks 80 years of Moomin stories – The central theme of the anniversary year is the Moominhouse and what it stands for – a sense of belonging, a place where the door is always open. Every character is welcomed as they are and accepted for who they are. The Moomin stories are universal and timeless tales about belonging and inclusion.

In 2025, we will celebrate these wonderful stories with special 80th anniversary editions of To Go Click, where the Moomin 80 anniversary logo has been integrated into the graphics.
