THE CRAFTSMANSHIP

WELCOME TO *the new era* OF KNABSTRUP KERAMIK

CRAFTSMANSHIP SINCE 1897

Knabstrup Keramik, one of Denmark's most beloved ceramic brands, has a rich history dating back to 1622. Originally established as Knabstrup Teglværk, the company began its journey into ceramics in 1897, pioneering the production of clay flowerpots. Over the years, the product range expanded to include pickle jars, dough dishes, vases, tableware, and more, all crafted with exceptional quality and artistic innovation. This dedication made Knabstrup Keramik one of the largest and most respected ceramic manufacturers of its time.

Throughout its history, Knabstrup Keramik collaborated with numerous ceramic artists and designers, drawing inspiration from around the world. From Hungarian artists post-World War II to German ceramists in the 1960s, these creative minds shaped and decorated pieces that became cherished collectibles.

In 2017, Knabstrup Keramik was relaunched with a vision to honor its storied past while embracing the future. We are committed to reviving the artistry and craftsmanship that defined Knabstrup Keramik, exploring our rich archives to bring timeless designs back to life.

Our aim is to celebrate the talented ceramists who shaped our history and to continue their legacy through collaboration with today's innovative artists. By working with contemporary ceramists, we strive to blend historical excellence with exciting new innovations in ceramics.

Join us in celebrating the passion and artistry of Knabstrup Keramik. Rediscover the beauty of tradition, reimagined for today.

COLORIT *a life* FULL OF COLOURS

What we need in our lives is colour—and lots of it. The Colorit range is a colourful 'sister' to the classic Knabstrup tableware, designed by Johannes Hansen back in the 1960s. Colorit features a simple, stylish design with an elegant, ribbed base, left raw and unglazed so we can see and feel the stoneware. The Colorit series comprises beautiful bowls, mugs and plates in vibrant glazes and colours. While each individual shade has tons of personality in itself, you can easily mix and match them.

The Knabstrup Colorit series includes mug 250 ml, bowl, plate Ø 19 and Ø 27 cm in colors sand, pink, coral, yellow and grey.

VANDKUNST

by Anders Tinsbo

WITH RESPECT *and* LOVE FOR THE ART THAT SURROUNDS US

Danish sculptor Anders Tinsbo's notable work, "Vandkunst", established in 1970 stands adjacent to the historic Rundetårn in Copenhagen. The fountain was a groundbreaking addition to the city's landscape, being the first modern sculpture of its kind.

Tinsbo's legacy encompasses a blend of classical and contemporary elements, with "Vandkunst" serving as an enduring testament to his mastery in capturing the essence of fluidity and organic shapes.

„Knabstrup Keramik honors "Vandkunst" and artist Anders Tinsbo through the creation of small sculpture replicas, paying a beautiful tribute to Tinsbo's artistry and spreading the delight of his modern sculpture to a broader audience. These miniature versions provide an opportunity for more individuals to encounter and cherish the distinct beauty and significance encapsulated in the original sculpture."

- Michael Ring, CEO of Knabstrup Keramik.
